10. Special Features

---

1. Platform Overview

TransRentals is India's multi-service vehicle rental and logistics marketplace connecting **Customers** with verified **Vendors** across 100+ cities.

Key Numbers

- **8 Core Services** — Bike, Car (Chauffeur), Self-Drive, Luxury Car, Bus, Truck, Equipment, Packers & Movers
- **3 User Types** — Customer, Vendor, Driver
- **2 Mobile Apps** — Customer App (Android/iOS), Vendor App (Android/iOS)
- **1 Driver Web Portal**
- **100+ Cities** across India
- **553 API Endpoints** powering the platform

Tech Stack

- **Web:** Next.js 14, TypeScript, Tailwind CSS
- **Mobile:** React Native (Customer v0.78, Vendor v0.79)
- **Payments:** Razorpay (UPI, Cards, Net Banking, Wallets)
- **Notifications:** Firebase Push + In-App + Email
- **Real-time:** Socket.io for chat & live updates

---

2. Services Offered

2.1 Bike Rental 🏍️

- **Categories:** Scooter, Bike (100-150cc), Bike (150-200cc), Sports Bike, Cruiser
- **Use Case:** Daily commute, weekend rides, city exploration
- **Flow:** Browse fleet → Select bike → Pay advance → Pickup with OTP → Return
- **Pricing:** Hourly / Daily / Weekly / Monthly rates

2.2 Car Rental with Driver (Chauffeur) 🚗

- **Categories:** Hatchback, Sedan, SUV, MUV/MPV
- **Trip Types:**
  - **Local** — Hourly packages (1hr/40km, 2hr/40km, 4hr/40km, 8hr/80km, 12hr/120km)
  - **Outstation One-Way** — City to city with multi-stop support
  - **Outstation Round-Trip** — Multi-city tour with return
  - **Airport Pickup/Drop** — To/from airport transfers
- **Pricing:** Per km rate + Driver allowance per day + Toll/Parking extra
- **Special:** Multi-stop outstation with route breakdown, ~km distance estimation

2.3 Self-Drive Car Rental 🔑

- **Categories:** Hatchback, Sedan, SUV, MUV/MPV
- **Use Case:** Customer drives the vehicle themselves
- **Flow:** Browse vehicles → Check availability → Pay advance → OTP pickup → Drive → Return
- **Pricing:** Daily rate + Security deposit (₹2,000)
- **Special:** Damage/theft protection options, fuel policy

2.4 Luxury Car Rental 💎

- **Categories:** Luxury Sedan, SUV, Limousine, Convertible, Vintage/Classic
- **Use Case:** Weddings, corporate events, VIP transfers, photoshoots
- **Flow:** Quote-based — Customer requests → Vendors send quotes → Customer selects best
- **Special:** Concierge service, premium chauffeurs

2.5 Bus Rental 🚌

- **Categories:** Mini Bus (12-15), Tempo Traveller (17-26), Bus (30-45), Volvo Coach (45-52)
- **Trip Types:** Local, Outstation One-Way, Outstation Round-Trip, Airport
- **Use Case:** Group travel, corporate outings, pilgrimages, weddings
- **Flow:** Quote-based — Enter trip details → Receive vendor quotes → Select & pay
- **Special:** Group size recommendations, multi-day trip support

2.6 Truck & Tempo Rental 🚚

- **Categories:** Mini Truck (Tata Ace), Tempo (407/709), Truck (14ft-22ft), Container, Trailer
- **Use Case:** Goods transport, logistics, commercial shipping
- **Flow:** Quote-based — Describe goods + route → Vendors quote → Select & book
- **Goods Types:** Household, Electronics, Furniture, Granites/Marbles, Industrial, etc.
- **Special:** Tonnage capacity, loading/unloading support options

2.7 Equipment Rental 🏗️

- **Categories:** Excavator, Crane, JCB, Loader, Bulldozer, Compactor, Generator, Scaffolding
- **Use Case:** Construction sites, events, industrial projects
- **Flow:** Quote-based — Specify equipment + duration → Vendors respond → Select
- **Rental Options:** Daily, Weekly, Monthly
- **Special:** Operator included option, on-site delivery, installation support

2.8 Packers & Movers 📦

- **Categories:** Local Shifting, Domestic Relocation, Office Shifting, Vehicle Transport, Storage
- **Use Case:** Home/office relocation, city-to-city moves
- **Flow:** Quote-based — Describe move details → Multiple vendor quotes → Compare & select
- **Special:** Insurance options, damage protection, packing materials included

---

3. Customer Experience

3.1 Customer Web Portal (transrentals.com)

Homepage

- **Auto Location Detection** — GPS + IP-based city detection with manual override
- **Service Cards** — 8 services with quick booking access
- **Smart Shivi Chatbot** — AI-powered booking assistant
  - Conversational booking creation
  - Service recommendations
  - Date/time selection with custom AM/PM picker
  - Location suggestions

Booking Pages (per service)

- **Local Package Selection** — Hour/KM based packages
- **Outstation Multi-Stop** — Add unlimited intermediate stops
- **Custom Time Picker** — Cross-browser AM/PM dropdown (no native input issues)
- **12-Hour Advance Validation** — Cannot book within 12 hours of current time
- **Real-time Pricing** — Instant fare calculation with breakdown
- **Route Distance Estimation** — Approximate km with "distances are approximate" note

Customer Dashboard

- **Booking Stats** — Active bookings, Upcoming trips, Active quotes (clickable filters)
- **My Bookings** — Filter by service type + status (Pending, Confirmed, In Progress, Completed, Cancelled)
- **Booking Details** — Full route info, pricing breakdown, payment summary, vendor details
- **Payment History** — All transactions, receipts
- **Profile Management** — Edit name, phone, email, profile photo
- **Notifications** — Real-time booking updates, quote alerts, payment confirmations

Helpdesk / Support

- **Create Ticket** — Title, description, attach images
- **Link Booking** — Dropdown to attach related booking (all services)
- **Track Status** — Open → In Progress → Resolved / Cancelled
- **View Admin Response** — Green box shows resolution from support team
- **Filter Tabs** — All, Pending, Resolved, Cancelled

Logout

- **Confirmation Modal** — "Are you sure?" with Cancel/Yes buttons + loading spinner

---

3.2 Customer Mobile App (Android + iOS)

Home Screen (Dashboard)

- **Welcome Header** — User name, profile photo, location display
- **Browse by Category** — 8 service tiles with icons
  - Bike, Standard Car, Luxury Car, Self-Drive, Bus, Truck, Equipment, Packers & Movers
  - B2B category for corporate customers
- **Quick Stats Card** (Green gradient)
  - Active Bookings → Tap to see confirmed bookings
  - Upcoming Trips → Tap to see pending bookings
  - Active Quotes → Tap to see pending quotes

- **Upcoming Bookings Section** — Next 5 bookings with service icon, route, date, status
- **Active Quotes Section** — Pending quote requests with vendor response count
- **How TransRentals Works** — 3-step onboarding guide
- **Testimonials** — Customer reviews horizontal carousel
- **Safety Tips** — Verified Drivers, Live Tracking, 24×7 Support, Secure Payments
- **Notification Bell** — Unread count badge
- **Pull to Refresh** — Live data update

Booking Creation (per service)

Each service has its own booking screen with:

- **Location Dropdowns** — Search with keyboard autocomplete, trim() for clean matching
- **Multi-Stop Support** — Add intermediate cities (Outstation)
- **Date Picker** — Native date picker with 12-hour advance validation
- **Time Picker** — Native time picker
- **Advance Booking Alert** — Animated modal when pickup too soon
  - Shows earliest available pickup time
  - Red warning design with clear message
- **Continue Button Validation** — Blocks next step if date/time invalid
- **Vehicle Selection** — Fleet cards with specs (seats, AC, fuel type)
- **Pricing Display** — Per km rate, driver allowance, toll/parking info
- **Distance Note** — "Distances are approximate and may vary"

Booking Screens Available

1. **Bike Booking** — BikeBookingScreen, BikeFleetScreen
2. **Car Rental (Chauffeur)** — CarRentalFleetScreen
   - One-Way with multi-stop
   - Round-Trip with multi-stop
   - Airport Pickup/Drop
3. **Self-Drive** — SelfDriveBookingScreen, SelfDriveFleetScreen
4. **Luxury** — LuxuryScreen, LuxuryCarRentalScreen
5. **Bus** — BusRentalFleetScreen, LocalScreen, OutstationScreen
6. **Truck** — CommercialBookingScreen, PersonalBookingScreen
7. **Equipment** — EquipmentBookingScreen
8. **Packers & Movers** — HomeBookingScreen, OfficeBookingScreen, VehicleBookingScreen

My Bookings

- **Service Filter** — All, Bike, Car, Bus, Truck, Self-Drive, Equipment, Packers, Luxury
- **Status Filter** — All, Pending, Confirmed, In Progress, Completed, Cancelled
- **Search** — Find by booking number or location
- **Booking Card** — Service icon, route, date, status badge, vendor info
- **Tap for Details** — Full booking detail with fare breakdown

Booking Details Screen

- **Route Display** — From → Intermediate Stops → To
- **Fare Breakdown** — Distance, per km rate, driver allowance, toll/parking
- **Payment Summary** — Total, advance paid, balance due
- **Vendor Details** — Business name, phone, vehicle info
- **Status Timeline** — Visual progress of booking

Helpdesk

- **Create Ticket** — Title, description, photo upload
- **Booking Dropdown** — All bookings fetched (Open, Confirmed, Ongoing, Completed, Dropped)
- **Status Badges** — Color-coded (green=resolved, red=cancelled, yellow=pending)
- **Admin Response** — Green box with resolution text and date
- **Filter Tabs** — All, Pending, Resolved, Cancelled
- **Image Preview** — Full-screen image viewer for attachments

Profile & Settings

- **View/Edit Profile** — Name, email, phone, photo
- **Notifications** — In-app notification center
- **Expenses** — Payment history and tracking
- **B2B Registration** — Corporate customer signup
- **Logout** — Confirmation alert: "Are you sure you want to logout?"

Bottom Navigation

- **Home** — Dashboard
- **Payments** — Expenses & payment history
- **Bookings** — My Bookings with filters
- **Chat** — All booking conversations

---

4. Vendor Experience

4.1 Vendor Web Portal

Sidebar Navigation (with TransRentals logo)

- Dashboard
- Car Rental Bookings
- Bike Bookings
- Bus Bookings
- Truck Bookings
- Equipment Bookings
- Packers & Movers Bookings
- Luxury Bookings
- Self-Drive Bookings
- B2B Bookings
- Direct Bookings
- Booking Links / QR
- Fleet Management
- Staff Management
- Financials
- Notifications
- Chat
- CRM
- Reports
- Settings

Dashboard

- **Revenue Card** — Monthly earnings from completed bookings
- **Notifications Widget** — Latest 5 notifications with quick actions
    - New booking requests → Direct link to booking details
    - New quote requests → Link to quote response

    - Payment confirmations
- **Quick Actions** — Shortcuts to common tasks
- **Statistics** — Bookings count, active trips, pending quotes

Booking Management (per service)

- **Booking List** — Table with customer, route, date, status, amount
- **Status Actions:**
    - **Accept** — Green button to accept assigned booking
    - **Reject** — Red button to reject with reason
    - **Start Trip** — Begin active trip
    - **Complete** — Mark trip as finished
- **Booking Details Page** — Full customer info, route, pricing, payment status
    - Accept/Reject buttons available on detail page too

Quote Response System

- Receive broadcast notifications for new quote requests
- View customer requirements (route, dates, vehicle type, goods type)
- Submit competitive quote with pricing breakdown
- Track if quote was accepted/rejected
- Automated notifications on quote acceptance

Fleet Management

- Add vehicles (category, brand, model, registration, specs)
- Set availability and blocked dates
- Upload vehicle photos and documents
- Track vehicle assignments
- Maintenance reminders

Staff Management

- Add drivers, helpers, mechanics, supervisors
- Track attendance
- Assign staff to bookings
- Driver license and document management

Notifications Page

- All notification types with timestamps
- Click-through to relevant booking/quote
- Read/unread status
- Filter by type

Financials

- Earnings overview (monthly/weekly/daily)
- Booking-wise revenue breakdown
- Payout history
- Bank details management

4.2 Vendor Mobile App (Android + iOS)

Dashboard

- Active bookings count
- Today's trips

- Pending quotes
- Quick actions

Booking Management

- View all bookings across services
- Accept/Reject actions
- Trip status updates (Start/Complete)
- Customer contact info

Quote Requests

- New quote alerts
- Submit quotes with pricing
- Track quote status

Fleet

- Vehicle list and availability
- Add/edit vehicles
- Document uploads

P2P Marketplace (Vendor-to-Vendor)

- **Post Vehicle** — Share empty vehicle capacity with other vendors
- **Post Booking Need** — Request vehicles from other vendors
- **Browse Available** — Find vehicles posted by other vendors
- **Transactions** — Track P2P deals
- **Ratings** — Rate other vendors after P2P transactions

Social Feed (Vendor Community)

- Create posts with images
- SOS posts (emergency, 24-hour expiry)
- Like, comment, save posts
- Follow other vendors
- Direct messaging with vendors

Profile & Settings

- Business profile management
- Bank account details
- Document uploads
- Service area configuration

---

5. Driver Experience

5.1 Driver Web Portal

Authentication

- Phone number + OTP login (no password needed)
- Linked to vendor staff records

Dashboard

- Active bookings count
- Today's schedule overview

My Bookings

- List of assigned bookings
- Filter by status: Pending, Active, Completed
- Filter by service type

Booking Details

- Customer name and contact
- Pickup and drop location
- Route with intermediate stops
- Date and time
- Vehicle assigned
- Special instructions

Trip Management

- **Request OTP** — Generate one-time code for trip verification
- **Start Trip** — Begin after OTP verification
- **Complete Trip** — Mark as finished at destination
- **Status Flow:**
  - Assigned → OTP Verified → In Progress → Completed

Earnings

- Per-booking earnings
- Daily/weekly/monthly summary

Notifications

- New booking assignments
- Trip reminders
- Schedule changes

---

6. Booking Flows & Journeys

6.1 Browse-First Flow (Bike, Self-Drive, Car Rental)

```
Customer opens service page
    ↓
Selects trip type (Local/Outstation/Airport)
    ↓
Enters locations (From, To, Intermediate Stops)
    ↓
Selects dates and time (12-hour advance minimum)
    ↓
Views available vehicles with pricing
    ↓
Selects vehicle → Sees fare breakdown
    ↓
Confirms booking → Pays advance (30%)
    ↓
Razorpay payment (UPI/Card/Wallet)
    ↓
Booking confirmed → Vendor notified
    ↓
Vendor accepts → Driver assigned
```

```
    ↓
Customer gets notification with driver details
    ↓
Trip day: OTP verification → Trip starts
    ↓
Trip completes → Final payment → Rating
```

6.2 Quote-Based Flow (Bus, Truck, Equipment, Packers, Luxury)

```
Customer creates quote request
    ↓
System broadcasts to relevant vendors (location + service match)
    ↓
Multiple vendors receive notification
    ↓
Vendors submit competitive quotes
    ↓
Customer receives quotes → Compares pricing
    ↓
Customer accepts best quote
    ↓
Pays advance (30%) via Razorpay
    ↓
Booking confirmed → Vendor notified
    ↓
Vehicle/Team assigned → Customer notified
    ↓
Service delivered → Trip completed
    ↓
Final payment → Rating & review
```

6.3 Chat-Based Flow (via Smart Shivi)

```
Customer opens any service page
    ↓
Clicks chat widget (Smart Shivi)
    ↓
Shivi asks: What service? Where? When?
    ↓
Customer answers conversationally
    ↓
Shivi validates dates (12-hour rule)
    ↓
Creates booking/quote request
    ↓
Redirects to payment or confirmation
```

---

7. Payment System

Payment Gateway: Razorpay

Payment Methods Supported

- Credit/Debit Cards (Visa, Mastercard, RuPay)
- UPI (Google Pay, PhonePe, Paytm)
- Net Banking (all major banks)
- Wallets (Paytm, PhonePe, Amazon Pay)

Payment Structure

Component	Amount
Base Fare	Per km/hr rate × distance/time
Driver Allowance	₹300/day (chauffeur services)
Toll/Parking	Extra, as applicable
GST	18% on total
Advance Payment	**30% of total**
Security Deposit	₹2,000 (self-drive only)
Balance	Due at trip completion

Payment Flow

1. Customer clicks "Pay Advance"
2. Razorpay checkout opens (embedded)
3. Customer completes payment
4. HMAC signature verification (server-side)
5. Payment verified → Booking status: CONFIRMED
6. Vendor receives "Payment Received" notification
7. Receipt generated for customer

Day Calculation (for multi-day trips)

- **Formula:** `ceil(total_hours / 24) = days`
- Example: 25 Mar 10 PM → 28 Mar 2 PM = 64 hours = ceil(2.67) = **3 days**
- Night bookings (10 PM+) naturally don't count first night as full day

---

8. Notification System

Customer Notifications

Event	Message Example
Booking Confirmed	"Your car rental booking CB-2026-XXX has been confirmed!"
Quote Received	"New quote received for your bus rental request"
Driver Assigned	"Driver Ramesh has been assigned for your trip"
Payment Success	"₹3,465 advance payment received for booking CB-2026-XXX"

Trip Started	"Your trip has started! Have a safe journey"
Trip Completed	"Trip completed! Rate your experience"
Ticket Response	"Support team has responded to your ticket TKT000001"

Vendor Notifications

Event	Message Example
New Booking	"New car rental booking in Mumbai. Tap to view details"
New Quote Request	"Shrusti is looking for Bus Rental in Ahmedabad"
Quote Accepted	"Your quote for bus rental has been accepted!"
Payment Received	"Advance payment of ₹5,000 received for booking BUS-2026-XXX"
Trip Completed	"Trip CB-2026-XXX marked as completed"
New Review	"Customer rated your service 5 stars!"

Driver Notifications

Event	Message Example
New Assignment	"You've been assigned to booking CB-2026-XXX"
Trip Reminder	"Upcoming trip tomorrow at 10:00 AM"
OTP Generated	"Trip OTP generated. Share with customer for verification"

Notification Channels

- **Push Notifications** — Firebase Cloud Messaging (Android + iOS)
- **In-App** — Notification center with read/unread
- **Email** — Booking confirmations, payment receipts
- **Real-time** — Socket.io for instant updates

---

9. Chat & Messaging

Customer ↔ Vendor Chat

- **Booking-specific** — Each booking has its own conversation
- **Real-time** — Instant message delivery via Socket.io
- **Media Support** — Send images, documents
- **Read Receipts** — See when messages are read

Smart Shivi (AI Chatbot)

- Available on all service pages
- Conversational booking assistant
- Date/time selection with validation
- Service recommendations based on needs

- Hands-free booking creation

Vendor ↔ Vendor (Social DM)

- Direct messaging between vendors
- Community interaction
- P2P deal negotiations

---

10. Special Features

10.1 Multi-Stop Outstation

- Add unlimited intermediate stops on outstation trips
- Each stop shows as a route leg with approximate distance
- Route breakdown: From → Stop 1 → Stop 2 → ... → Destination
- KM calculated per leg, total minimum KM applied

10.2 12-Hour Advance Booking Rule

- Pickup must be at least 12 hours from booking time
- Animated warning alert with earliest available pickup time
- Applied across all 8 services (web + app)
- Blocks form submission, not just date picker

10.3 Custom Time Picker

- Cross-browser consistent (replaces native `<input type="time">`)
- Explicit AM/PM toggle
- Hour (01-12) and Minute (00-55) dropdowns
- Works identically in Chrome, Firefox, Safari, Edge

10.4 B2B Corporate Bookings

- Corporate customer registration with approval workflow
- Bulk booking with multiple vehicles
- Pre-loaded wallet for quick payments
- Auto-generated invoices
- Dedicated support channel

10.5 Vendor P2P Marketplace

- Vendors share excess vehicle capacity
- Other vendors can book available vehicles
- Rating system for vendor-to-vendor trust
- Reduces empty return trips

10.6 Location Intelligence

- GPS-based auto-detection on app load
- IP-based fallback when GPS unavailable
- 100+ Indian cities supported
- Location-specific pricing and availability
- Service pages for every city × service combination

10.7 Wander (Tours & Experiences)

- Tour packages created by vendors

- Customer quote requests for custom itineraries
- Booking + review system
- Wishlist feature for saving tours

10.8 Vendor Social Feed

- Instagram-style posts with images
- SOS emergency posts (24-hour expiry)
- Like, comment, save functionality
- Vendor following system
- Community building among vendors

10.9 Booking Links & QR Codes

- Vendors generate shareable booking links
- QR code for offline-to-online conversion
- Direct checkout from shared link
- Analytics on link usage

10.10 Web Stories

- Visual stories (like Instagram Stories) on website
- Multiple slides with text overlays
- Emoji reactions from visitors
- Auto-expiry after 24 hours
- SEO-optimized for Google Discover

Brand & Design Notes

Color Palette

Role	Primary	Secondary
Global Brand	`#09B368` (Teal Green)	`#064E3B` (Deep Green)
Customer App	`#09B368` → `#047857` gradient	White backgrounds
Vendor Portal	`#1E293B` (Dark sidebar)	Indigo accents
Admin/Manager	Indigo `#4F46E5`	Purple `#7C3AED`

Typography

- **Headings:** Bold, tight tracking
- **Body:** 13-14px, medium weight
- **Labels:** 11px, uppercase, wider tracking
- **Status Badges:** Rounded pills, color-coded per status

Status Color Coding

Status	Color	Hex
Pending	Yellow/Amber	`#F59E0B`
Confirmed	Green	`#09B368`

In Progress	Blue	`#3B82F6`
Completed	Dark Green	`#059669`
Cancelled	Red	`#EF4444`

---

11. Key Feature Deep-Dives

11.1 OTP-Based Trip Verification

Ensures secure vehicle handover between driver/vendor and customer.

How it works:

1. Driver clicks "Request OTP" on assigned booking
2. System generates 4-digit OTP → sent to customer via notification
3. Customer shares OTP with driver at pickup point
4. Driver enters OTP → System verifies → Trip status changes to "In Progress"
5. At drop-off, similar verification for trip completion

Applied to: Car Rental (Chauffeur), Self-Drive, Luxury, Bus **Security:** OTP has expiry time, one-time use, cannot be reused

11.2 Rating & Review System

After every completed booking, both parties can rate each other.

Customer rates:

- Overall Experience (1-5 stars)
- Driver Rating (1-5 stars) — for chauffeur services
- Vehicle Condition Rating (1-5 stars)
- Written Review (optional text)

Vendor sees:

- Average rating on profile
- Per-booking reviews
- Rating trends over time

Display:

- Customer app: After trip completion, rating popup
- Vendor dashboard: Reviews page with all ratings
- Public: Rating shown on vendor profile for trust

11.3 Booking Cancellation & Refund

Customer can cancel:

- Before vendor accepts → Full refund
- After vendor accepts → Partial refund (depends on policy)
- Cancellation reason required

Vendor can reject:

- Before accepting → Booking goes back to broadcast

- After accepting → Needs manager/admin approval

Manager/Admin can cancel:

- Any booking at any stage
- With reason (shown to customer)
- Triggers refund process

Refund Flow:

- Auto-calculated refund amount
- Razorpay refund API triggered
- Customer notified of refund status
- Refund tracked in payment history

11.4 Invoice & Receipt Generation

Auto-generated invoices for every completed booking:

- Booking number, date, service type
- Customer details (name, phone, email)
- Vendor details (business name, GSTIN)
- Route details (from → stops → to)
- Fare breakdown (distance, per km, driver allowance, toll)
- GST calculation (18%)
- Payment summary (advance paid, balance, total)
- Digital format viewable in app

Customer App: Invoice screen accessible from booking details **Vendor Portal:** Invoice management with download/print

11.5 Spin & Win (Gamification)

Customer engagement feature:

- Spinning wheel with discount coupons
- Available on customer dashboard
- Random discount allocation (5%, 10%, 15%, 20%)
- Coupon valid for next booking
- Limited spins per day/week
- Animated spinning wheel UI

11.6 Backr Tokens (Loyalty Program)

Earn tokens on every booking:

- Percentage of booking value earned as tokens
- Token wallet with balance display
- Transaction history (earned, redeemed, expired)
- Redeem tokens for discount on future bookings
- Token burn analytics for business tracking

11.7 Vendor Quote Templates

Pre-saved pricing templates for faster quote responses:

- Create templates per vehicle type

- Save commonly used pricing structures
- One-click apply template when responding to quote request
- Edit before sending
- **Available for:** Bus, Truck, Equipment, Packers, Luxury, Bike

11.8 Vendor Booking Links & QR Codes

Offline-to-online conversion tool:

- Vendor generates unique booking link for their fleet
- Auto-generates QR code for the link
- Customer scans QR → Opens booking page with vendor pre-selected
- Direct checkout without browsing
- Analytics: Click count, conversion tracking
- **Use case:** Vendor puts QR on vehicle, shop, business card

11.9 Vendor Direct Bookings

For bookings made outside the platform:

- Vendor manually enters booking details
- Track offline bookings in one dashboard
- Expense tracking per booking
- Revenue reporting includes direct bookings
- Maintains complete booking history

11.10 Vendor Calendar View

Visual booking calendar:

- Day/Week/Month view
- Color-coded by service type
- See all bookings across services
- Identify availability gaps
- Click booking to view details

11.11 Fleet Management (Detailed)

Complete vehicle lifecycle management:

Feature	Description
Vehicle Inventory	Add/edit vehicles with full specs
Availability Calendar	Set available dates, block dates
Document Management	Upload RC, Insurance, Permit, PUC
Document Alerts	Expiry reminders for insurance, permits
Maintenance Records	Service history, next service due
Fuel Records	Track fuel expenses per vehicle
Incident Reports	Accidents, damages, insurance claims
Analytics	Utilization rate, revenue per vehicle

11.12 Staff Management (Vendor)

Driver & team management:

Feature	Description
Add Staff	Drivers, Helpers, Mechanics, Supervisors
Attendance	Daily attendance tracking
Assignment	Assign drivers to bookings
Documents	License, ID proof, verification
Performance	Trip count, ratings, complaints

11.13 Vendor CRM

Customer relationship management:

- Lead tracking from inquiries
- Customer interaction history
- Follow-up reminders
- Conversion funnel tracking
- Communication templates (SMS, WhatsApp templates)

11.14 Vendor Financials Dashboard

Complete financial overview:

- Total earnings (monthly/weekly/daily)
- Booking-wise revenue breakdown
- Service-wise earnings comparison
- Payout history & schedule
- Bank account management
- Expense tracking
- Profit/Loss summary
- Invoice management
- Wallet balance (for B2B payouts)

11.15 Vendor Branches

Multi-location vendor support:

- Add multiple branch offices
- Branch-wise fleet allocation
- Location-specific pricing
- Branch manager assignment
- Per-branch analytics

11.16 B2B Corporate Booking (Detailed)

Enterprise vehicle management:

For Corporate Customers:

- Company registration with GST details

- Admin approval workflow
- Dedicated account manager
- Pre-loaded wallet for instant bookings
- Bulk booking creation (multiple vehicles at once)
- Monthly invoicing (instead of per-booking payment)
- Employee-wise booking tracking

For Vendors:

- B2B quote requests with higher volume
- Super Quote system (one quote for multiple vehicles)
- Dedicated fleet allocation for corporate clients
- Monthly settlement instead of per-trip

B2B Booking Status Flow:

```
DRAFT → ISSUED → PARTIALLY_PAID → PAID → TRIPS_CREATED → COMPLETED
```

11.17 Advance Payment & Security Deposit System

Two-tier payment protection:

Component	Amount	When	Refund
Advance Payment	30% of total fare	At booking confirmation	Refundable on cancellation (policy-based)
Security Deposit	₹2,000 (configurable)	Self-drive only, at pickup	Refunded after damage inspection
Balance Payment	70% remaining	At trip completion or invoice	N/A

Advance Payment Verification:

1. Customer pays via Razorpay
2. Razorpay webhook triggers verification
3. HMAC signature validated (cryptographic)
4. Status auto-updates: PENDING_PAYMENT → PAYMENT_VERIFIED
5. Vendor receives instant notification
6. Booking moves to BROADCASTED (for quote-based) or ACCEPTED

11.18 Real-time Vendor Broadcasting

How vendors receive booking requests:

1. Customer creates booking/quote request
2. System identifies eligible vendors:
    - Same location/city
    - Same service type active
    - Fleet available for the dates
3. Push notification sent to all matching vendors
4. Vendor sees notification with booking details
5. First vendor to accept gets the booking (first-come-first-serve)

6. Other vendors notified that booking is taken

Broadcast tracking:

- System tracks which vendors received notification
- Response time analytics
- Acceptance rate per vendor

---

12. Screen-by-Screen Reference (Customer App)

Authentication Screens

Screen	Description
Splash Screen	App logo, auto-login check
Login	Phone + OTP / Google Sign-in
Register	Name, email, phone, password
OTP Verification	4-digit code entry

Main Navigation (Bottom Tabs)

Tab	Screen	Key Features
Home	CustomerDashboard	Categories, stats, bookings, quotes
Payments	ExpensesScreen	Payment history, receipts
Bookings	MyBookingsScreen	All bookings with filters

14. Marketing Highlights & USPs

For Customer Marketing

1. **"One Platform, 8 Services"** — Bike to Bus, Truck to Luxury, all in one app
2. **"Compare & Save"** — Multiple vendor quotes, choose the best price
3. **"Book 24/7"** — Online booking anytime (12-hour advance)
4. **"Verified Vendors"** — Document-verified, rated vendors only
5. **"Transparent Pricing"** — Full fare breakdown before booking, no hidden charges
6. **"Secure Payments"** — Razorpay powered, HMAC verified
7. **"Real-time Tracking"** — Know your booking status at every step
8. **"100+ Cities"** — Pan-India coverage across major cities
9. **"Smart Shivi"** — AI chatbot for effortless booking
10. **"Spin & Win"** — Gamified discounts on every visit
11. **"Backr Tokens"** — Earn loyalty points on every trip
12. **"Multi-Stop Outstation"** — Tour multiple cities in one booking
13. **"OTP Verified"** — Secure pickup with one-time code
14. **"Corporate B2B"** — Bulk bookings with wallet & invoicing

For Vendor Marketing

1. **"Zero Commission Start"** — List your fleet for free
2. **"Auto Lead Generation"** — Receive booking requests automatically
3. **"Complete Business Suite"** — Fleet, staff, finance, CRM — all in one
4. **"P2P Marketplace"** — Fill empty seats, earn from idle capacity
5. **"Booking Links & QR"** — Convert offline customers to online bookings
6. **"Quote Templates"** — Respond to requests in seconds
7. **"Multi-Service"** — List across 8 services from one dashboard
8. **"Vendor Social"** — Network with other vendors, share SOS
9. **"Real-time Notifications"** — Never miss a booking opportunity
10. **"Analytics & Reports"** — Data-driven business decisions

For Driver Marketing

1. **"Simple Interface"** — Just bookings, OTP, and earnings
2. **"OTP Security"** — Verified handover, no disputes
3. **"Earnings Tracking"** — See exactly what you earn per trip
4. **"Mobile Friendly"** — Web portal works on any phone browser
